Glycolic Peeling Treatment **\$95**

This Glycolic Peel is a safe and painless exfoliation process that removes a micro-thin top layer of skin. This form of skin rejuvenation uses Glycolic acid to remove damaged cells on the top layer of the skin. Removal of damaged cells stimulates cell division that results in plumper, healthier young cells. This Glycolic Peel procedure smoothes and softens the skin, diminishes fine lines, decreases acne outbreaks, evens out coloration and lightens hyperpigmented areas. A series of 6 is recommended. **Series of 6 \$475 Savings of \$95**

Double Surface Peeling Treatment **\$95**

This treatment uses extra-strength exfoliation to peel away dulling surface layers, minimize the appearance of pores, and smooth the skin. An immediate improvement in texture will occur, surface skin will feel like porcelain, and your complexion will take on a healthy, youthful glow. The intensity of the treatment is customized for your exact skin to ensure maximum results.

Pumice Peel Manual Microdermabrasion Treatment **\$120**

The ultra-fine pumice crystals in this machine-less microdermabrasion treatment peel-away dull, dreary cells, abrade uneven skin and visibly reduce the appearance of fine lines and wrinkles. A skin-resurfacing treatment, it also includes a customized mask to infuse nutrients into your newly polished complexion. The results will be brighter skin with improved clarity and a more even tone. It's the ideal option for those who want the effects of microdermabrasion without the machine.

Personalized Bacial *Great Gift for Men!* **\$90**

This treatment includes a thorough cleansing of the back, a gentle exfoliation to remove the dead skin cells, manual extraction if necessary, a massage, mask and to finish off, a moisturizing treatment for your skin type. Think of it as a facial, only for your back.
